

### Logic Assignment — Brush Your Teeth

How do you brush your teeth?

- What do I need to brush my teeth?
  - A toothbrush
  - Toothpaste
  - A cup of water
  - A sink
- 1) Take your toothbrush and wet it under running water from the sink
- 2) Open the toothpaste and squeeze it on the bristles of your toothbrush
- 3) Take your toothbrush with toothpaste and brush your teeth in a circular motion
  - Start with the bottom row of teeth, brushing the tops of your teeth, then the backs of your teeth
  - Then go to the top row of teeth, brushing the tops of your teeth, then the backs of your teeth
  - Then bring your teeth together, creating a smiling shape, and brush the fronts of your teeth
- 4) Spit out your toothpaste into the sink
- 5) Turn the faucet on to rinse the sink
- 6) Take your cup of water, drink the water to rinse out your mouth. Do not swallow the water. Swish it around, then spit it out.
